

ENDS AND TRENDS WITH KIM AND KAREN

Karen's Trend Alert: The rustic look is really the rage nowadays! Designers are big on creating that intimate, barn-like setting at home through farm tables, benches, mason jars and burlap. And don't think this is the same ol' burlap you remember. That itchy, brown woven cloth isn't just used for potato sacks and bags anymore!

These days, burlap is being used for trendy rugs, tablecloths, runners, curtains and pillows. Go to any textile shop and you'll find burlap comes in a variety of fibers, colors and even patterns.

If you plan to use burlap for any crafting or sewing projects, be sure to ask a professional about how to properly work with it. Trust me, I learned the hard way just how messy it can be!

Happy decorating, crafting & sewing!
